

12V Portable Car Refrigerator

Description

Stay Cool and Fresh on Every Adventure

Whether you're heading out on a road trip, camping adventure, or just need to keep your groceries chilled on the way home, this 12V Portable Car Refrigerator is the perfect companion. With its impressive 48-quart capacity, you'll have ample space to store food, drinks, and snacks for all your trips. The detachable basket and adjustable layout allow you to organize your items with ease, while its energy-efficient design ensures your food stays fresh no matter where the road takes you.

Advanced Cooling Technology at Your Fingertips

This electric cooler features a powerful compressor and an efficient condenser tube, giving you fast cooling capabilities and reliable temperature control. With an adjustable range from -4°F to 68°F , you can quickly switch between freezing or cooling modes depending on your needs. The APP control feature allows you to manage the temperature right from your smartphone, ensuring your food and drinks are kept just how you like them.

Durable and Convenient Design

Made for outdoor enthusiasts, this car refrigerator is built tough with composite insulation material and a 45mm thick foam layer, making it wear-resistant and highly efficient in preserving temperature. Its portable design with easy-to-carry handles ensures you can move it with ease, while its detachable basket allows you to customize the interior space as needed. Whether you're using it in your car, SUV, or truck, the portable refrigerator fits perfectly into most vehicles.

Why You'll Love This Portable Refrigerator

- Large 48-quart capacity – perfect for road trips, camping, and long journeys.

- APP-controlled temperature settings for quick adjustments via smartphone.
- Dual-mode options: MAX for fast cooling and ECO for energy savings.
- High-efficiency cooling between -4°F and 68°F for optimal food storage.
- Detachable basket for customizable storage layout.
- Durable build with composite insulation and 45mm foam for superior temperature retention.
- Three-level battery protection prevents overload or depletion.
- Portable, easy-to-carry design – ideal for cars, trucks, SUVs, and more.

Take Control of Your Cooling Needs Today

Don't let your food spoil or drinks warm up during your adventures. This 12V Portable Car Refrigerator ensures you always have a reliable cooler by your side, wherever you go. With its advanced cooling features, durable design, and convenient APP control, this electric cooler is the perfect solution for all your outdoor and on-the-go cooling needs. Keep your next trip fresh, easy, and enjoyable!
