

2-in-1 WiFi Smart Carbon Monoxide & Smoke Detector Alarm

Description

Stay Safe with a Smart Carbon Monoxide & Smoke Detector

Protect your home and loved ones with this 2-in-1 WiFi-enabled Carbon Monoxide and Smoke Detector. Combining the power of an advanced electrochemical carbon monoxide sensor and a photoelectric smoke sensor, this smart detector offers reliable, real-time monitoring of your home's safety. The device is equipped to notify you instantly through the Tuya or Smart Life app, no matter where you are. It connects easily to your WiFi, requiring no additional gateway, making it a hassle-free addition to your smart home setup.

Reliable Features for Maximum Safety

This smart alarm isn't just a typical smoke detector—it's a dual-function device that detects both carbon monoxide and smoke for complete protection. Its built-in Bluetooth module ensures quick and easy WiFi connectivity, making setup simple. The alarm emits a loud 85 dB sound, enough to alert everyone in your household. And with the app's real-time alerts, you'll always know if something is wrong, even when you're away from home.

Product Benefits:

- Real-time alerts on your phone for instant awareness of fire or carbon monoxide danger.
- Easy integration with the Tuya or Smart Life app—no extra gateway required.
- WiFi and Bluetooth-enabled for efficient, quick setup.
- Advanced photoelectric and electrochemical sensors ensure fast, accurate detection.
- Temporary alarm silencing through the app, perfect for accidental triggers like kitchen smoke.
- Clear, loud 85 dB alarm to ensure everyone is alerted in an emergency.
- Battery status notifications so you'll never be caught off-guard by low power.

Why Choose This Smart Detector?

With its dual-sensing technology, this smart detector provides a higher level of protection than standard alarms. It's perfect for any area where carbon monoxide leaks or smoke may be present—whether it's your kitchen, living room, or even your garage. The easy-to-use mobile app gives you full control over your home's safety at your fingertips, allowing you to monitor and silence alarms from anywhere. This device is designed for convenience, especially for seniors and those with limited mobility, thanks to the app's easy controls.

Be Proactive About Safety

Don't leave your home's safety to chance. Equip your space with this 2-in-1 WiFi Smart Carbon Monoxide & Smoke Detector today and ensure you're always prepared for the unexpected. Stay connected, stay safe, and keep your family protected—wherever you are.
