

22.5W Metal Power Bank with 10000mAh Capacity

Description

Stay Powered Up with the 22.5W Metal Power Bank

Never run out of battery again with the 22.5W Metal Power Bank. With a robust 10000mAh capacity, this power bank is designed to keep your devices charged and ready to go, no matter where you are. Its sleek metal design not only looks great but is also durable, ensuring it withstands daily use. Whether you're on a long trip, at work, or simply out and about, this power bank is your reliable companion for all your charging needs.

Quick and Efficient Charging

The 22.5W Metal Power Bank supports SCP, QC3.0, and PD3.0 two-way quick charging, ensuring your devices are powered up in no time. It features SCP 22.5W light-speed quick charge, perfect for Huawei devices, and PD 20W fast charging for the latest iPhone models. With this power bank, you can charge your iPhone 13/12 series quickly and efficiently, or provide regular charging for older models. The high power output ensures your devices get the fastest charge possible, making it ideal for those who are always on the go.

Large Capacity for Multiple Charges

With a 10000mAh capacity, the 22.5W Metal Power Bank can charge your iPhone 8 up to 3.5 times, iPhone X up to 2.5 times, and Mate 20 up to 1.5 times. This large capacity ensures that you can keep your devices powered throughout the day without needing to recharge the power bank frequently. Its flash power storage capability allows it to be fully charged in just 2 hours, so you spend less time waiting and more time using your devices.

Versatile and Compatible

This power bank is compatible with a wide range of mobile phones, including iPhone, Mi, Huawei, and Samsung, thanks to its support for various quick-charging protocols like QC3.0, PD3.0, FCP, AFC, and SCP. It features three input and three output ports, allowing you to charge multiple devices simultaneously. The all-metal shell is not only stylish but also durable, providing excellent protection for the internal components.

Smart and Safe Charging

The LED digital screen on the power bank displays the current, voltage, and battery level, giving you real-time information on the charging status. The self-developed BPS technology ensures intelligent shunting, providing faster and safer charging for your devices. With nine guarantees for safety, you can trust that your devices are protected against overcharging, overheating, and short circuits.

- 22.5W high power output for quick charging
- 10000mAh capacity for multiple device charges
- Supports SCP, QC3.0, and PD3.0 quick charge protocols
- Compatible with iPhone, Mi, Huawei, Samsung, and more
- Three input and three output ports for versatile use
- LED digital screen displays current, voltage, and battery level
- Durable all-metal shell for enhanced protection
- BPS technology for intelligent, safe charging

Get the 22.5W Metal Power Bank today and experience the convenience of quick, efficient, and safe charging for all your devices. Keep your gadgets powered up and ready to go, no matter where life takes you.
