

## 4K PTZ Conference Camera with 12x Zoom and HDMI

### Description

## Transform Your Virtual Meetings and Live Streams

Introducing the ultimate solution for high-quality video conferencing and live streaming – our 4K PTZ Conference Camera. Equipped with a powerful 8MP Sony IMX415 CMOS sensor and delivering 4K 30fps clarity, this camera ensures every detail is captured with precision. Whether it's for church worship, educational purposes, or professional meetings, this camera is designed to enhance your virtual presence. Its sleek design and intelligent features make it a standout choice for a range of settings.

### Key Features

- 12x Optical Zoom and 16x Digital Zoom for detailed close-ups
- Multiple Outputs: USB3.0, HDMI, and RJ45 for versatile connectivity
- Wide 78.58° Field of View with no distortion, perfect for capturing large groups
- Easy Plug & Play USB Connectivity for quick setup
- Advanced Video Compression Formats including H.264 and H.265
- Support for popular streaming and conferencing software like OBS, VMix, Zoom, and Skype
- Quiet and fast PTZ movements with preset positions for efficient operation

## When and Where to Use This Camera

Our 4K PTZ Conference Camera is best utilized in environments where high-quality video is paramount. It's ideal for church services, online education, professional meetings, and live streaming events. Its versatility makes it suitable for various setups, including ceiling, wall, or tripod mounting. The camera's extensive compatibility with streaming and conferencing software offers a seamless integration into your existing system.

## What Makes This Camera Special?

The combination of high-resolution video, powerful zoom capabilities, and versatile mounting options sets this camera apart. The state-of-the-art Sony sensor ensures top-notch image quality, while the smooth PTZ movements allow for dynamic framing and focus. Additionally, the camera's support for various network protocols and video compression formats makes it a highly adaptable tool for diverse streaming and conferencing needs.

## Benefits of Choosing Our Camera

- **Exceptional Video Quality:** Experience crystal-clear 4K resolution for your live streams and conferences.
- **Flexible Zoom Options:** Get up close with 12x optical zoom and enhance details with 16x digital zoom.
- **Wide Compatibility:** Effortlessly connect with the most popular conferencing and streaming platforms.
- **Easy Operation:** Simplify your setup with plug-and-play USB connectivity and intuitive controls.
- **Versatile Mounting:** Adapt to any setting with multiple mounting options.
