Revolutionary Features for an Unmatched Experience

- **540-Degree Obstacle Avoidance:** Navigate with confidence as our intelligent obstacle avoidance system keeps your drone safe from unexpected barriers.
- **Extended 6KM Image Transmission:** Enjoy a seamless flying experience with long-range, high-quality image transmission powered by a superior Sony lens.
- **Impressive Flight Time:** Explore longer with an extended flight time of 28 minutes, allowing you to capture more without the worry of frequent recharging.
- **User-Friendly Controls:** Whether you're a beginner or a pro, our MODE2 controller with a built-in lithium battery offers intuitive and responsive control over your drone.

When and Where to Use Your Drone

Designed for outdoor use, this drone is perfect for various scenarios – from capturing scenic landscapes and outdoor events to conducting aerial surveys. Its beginner-friendly operation makes it ideal for novice users, while advanced features cater to more experienced pilots. Use it in open spaces to take full advantage of its range and capabilities.

Why Choose Our Drone?

Our drone stands out with its unique blend of user-friendly features, advanced technology, and durable design. The 4K UHD camera mounted on a 3-axis gimbal ensures stable, high-definition images and videos. The sophisticated 540-degree obstacle avoidance system provides peace of mind, while the impressive 6KM range and 28-minute flight time allow for extensive exploration. This drone is not just a flying camera; it's a gateway to new perspectives and possibilities.

What's Included in Your Package

- 4K Camera with 3-axis Gimbal
- Rechargeable Batteries
- Remote Controller with Built-in Lithium Battery
- Charger and USB Cable
- Easy-to-Follow Operating Instructions
