Key Features

- 15 Bar Pump Extraction: Ensures full flavor extraction for a rich and creamy espresso.
- 1.2L Water Tank: Ample size for multiple servings without frequent refills.
- Visual Water Temperature Display: For precise control over your coffee brewing process.
- High-Pressure Steam Frother: Create velvety milk foam for cappuccinos and lattes.
- Quick Preheating: Saves time, perfect for busy mornings.
- Compact and Elegant Design: Fits beautifully in any kitchen setting.
- Dual Cup Option: Brew a single cup or two cups simultaneously.
- Easy Operation: User-friendly button and knob controls.

Why Choose Our Espresso Machine?

Our Espresso Coffee Machine is not just another kitchen appliance. It's a gateway to experiencing café-quality coffee in the comfort of your home. With its 15 Bar high-pressure pump, you can extract the full essence of coffee beans, ensuring a perfectly balanced cup every time. The rapid preheating feature means your coffee is ready when you are, without the wait. The high-pressure steam injection function not only helps in making a rich cup of espresso but also allows you to create dense, creamy milk foam

for a variety of coffee beverages. Its compact size and stylish design make it a great addition to any kitchen, while the clear temperature display keeps you in full control of the brewing process.
