

## Optical Flow Drone with Obstacle Avoidance and Dual HD Cameras

### Description

## Explore the Skies with Precision and Clarity

Introducing the Optical Flow Drone, your ultimate companion for breathtaking aerial photography and thrilling flight experiences. With its cutting-edge obstacle avoidance technology and high-definition dual cameras, this drone ensures you capture every moment in stunning detail. Whether you're a hobbyist or a professional, the LU200 is designed to deliver exceptional performance and endless fun.

## Advanced Features for Superior Flight Control

The LU200 drone is packed with features that make it stand out from the rest. Its optical flow technology provides precise hovering and stability, allowing you to focus on capturing the perfect shot. The obstacle avoidance system ensures a smooth and safe flight by detecting and avoiding obstacles from all sides. With a six-axis gyroscope and multiple speed settings, you can enjoy seamless control and maneuverability.

- Color: Silver Grey
- Material: Durable ABS
- Remote Control/APP Control
- 2.4GHz Frequency for Reliable Connection
- 6-Axis Gyroscope for Enhanced Stability
- Universal USB Charging Interface
- 3.7V 1800mAH Lithium Battery
- Flight Time: 10-15 Minutes
- Charging Time: 80-100 Minutes
- Remote Control Distance: Up to 328 Feet
- 1080p HD Video Recording
- Maximum Travel Speed: 6.2 mph

## Perfect for Every Occasion

The LU200 drone is ideal for a variety of uses. Capture stunning landscapes, create memorable family videos, or explore new perspectives with ease. The drone's headless mode and one-click takeoff and landing functions make it beginner-friendly, while advanced features like 360-degree rolling and gesture photography cater to more experienced users. No matter the occasion, the LU200 ensures you get the best shot every time.

## What Makes It Special?

The Drone's dual HD cameras and advanced obstacle avoidance system set it apart from other drones. Its lightweight design and robust build make it easy to carry and durable enough for various environments. The drone's ability to perform stunts, such as 360-degree rolls, adds an element of fun and excitement to your flights. With up to 15 minutes of flight time on a single charge, you can capture more without interruptions.

## Why Choose the Drone?

- Precise and stable flight with optical flow technology
- Advanced obstacle avoidance for safe navigation
- Dual HD cameras for stunning aerial photography and videos
- Easy to use for beginners and feature-rich for advanced users
- Portable and durable design for use in various environments
- Fun and exciting stunts with 360-degree rolling

## Get Ready to Take Off!

Don't miss out on the opportunity to elevate your aerial photography game. Order the Optical Flow Drone today and experience the thrill of capturing the world from above. With its advanced features and user-friendly design, this drone is perfect for anyone looking to explore the skies with precision and clarity.
