

Perch Bookshelf with Storage Baskets

Description

Modern Design Meets Pet Comfort

Welcome to the Perch Bookshelf – a contemporary blend of functionality and style designed for both your home and your furry friends. Our pure white bookshelf, adorned with contrasting grey step pads and a plush perch, seamlessly integrates into your modern home décor.

Multi-Functional Marvel

This 28" tall perch serves a multitude of purposes. The padded perch not only offers your pets an elevated sanctuary with an 8" stair height but also functions as a storage haven. Two premium storage baskets help declutter your home by providing a perfect spot for your pet's toys, treats, and accessories, or any other items that need a designated home. The best part? It's reversible, adapting to your evolving home and space needs.

Promoting Connection, Reducing Anxiety

Place the Perch Bookshelf by a window to connect your pets with the outdoor world, nature, and the happenings outside. Ideal for home offices, the bookshelf serves as a practical storage solution for books while enabling interaction with your perched pet. Position it next to your couch, offering your pet a stress-free way to join family time. Watch your pet associate the storage baskets with playtime, thanks to their keen "associative memory."
