

Portable Electric Tyre Inflator Pump with LED Lamp

Description

Discover Unmatched Convenience with Our Portable Tyre Inflator

Experience the ultimate solution in tire inflation with our Portable Electric Tyre Inflator Pump. Whether you're hitting the road in your car, motorcycle, or bicycle, this pump ensures that your journey remains smooth and uninterrupted. Its compact design and LED lamp make it a must-have for every vehicle owner.

Powerful and Efficient Inflation

Our inflator is designed to be robust and efficient. Inflate a 315 tire of an F150 in just 10 minutes, a 275 tire of an SUV in 7 minutes, a 195 tire of a sedan in 4 minutes, and a 150 tire of a motorcycle in a mere 2 minutes. The Metal Movement and High-performance Chip provide stable performance and an extended lifespan, making this pump a reliable companion for all your travels.

Versatile Power Options

This versatile pump offers two power sources: connect it to your car's cigarette lighter for uninterrupted tire inflation or utilize the 7800mAh battery for wireless operation. Perfect for situations like wilderness camping, outdoor boating, or attending ball games, it keeps you prepared for any scenario.

Enhanced Safety with Upgraded LED

Safety comes first, and our inflator is equipped with an upgraded LED light offering three modes and colors. Whether you need lighting or an SOS signal, this pump has you covered. It's more than just a tire inflator; it's a safety tool for every journey.

Smart Inflation and User-Friendly Design

Choose from 4 preset modes or manually set the pressure to suit your needs. The inflator's smart technology ensures fast inflation and auto-stop functionality. Its large dual display offers real-time and preset pressure values, making it easy to monitor tire pressure.

Comprehensive Accessory Kit

The package includes an Air Tube, Type-C Charging Cable, 118-inch Car Power Cable, 20A Fuse, 4 Inflatable Nozzles, and a Portable Bag. We aim to fulfill all your inflation needs in one compact, portable package.

Product Specifications

- Item Weight: 1.2kg
- Item Height: 5.7
- Item Width: 7.5
