Advanced Features

- **Effective Repellent Technology:** Utilizes refracted light to disorient and deter insects, making your dining area a no-fly zone.
- **Safe Blade Design:** The soft-stop blades are safe to touch, pausing when obstructed and resuming once the path is clear, ensuring safety for all users.
- **Dual Power Options:** Powered by a USB cable or 2 AA batteries (not included), providing flexibility and convenience for all outdoor settings.
- **Compact and Portable:** Easy to transport and set up, making it ideal for all your outdoor events.

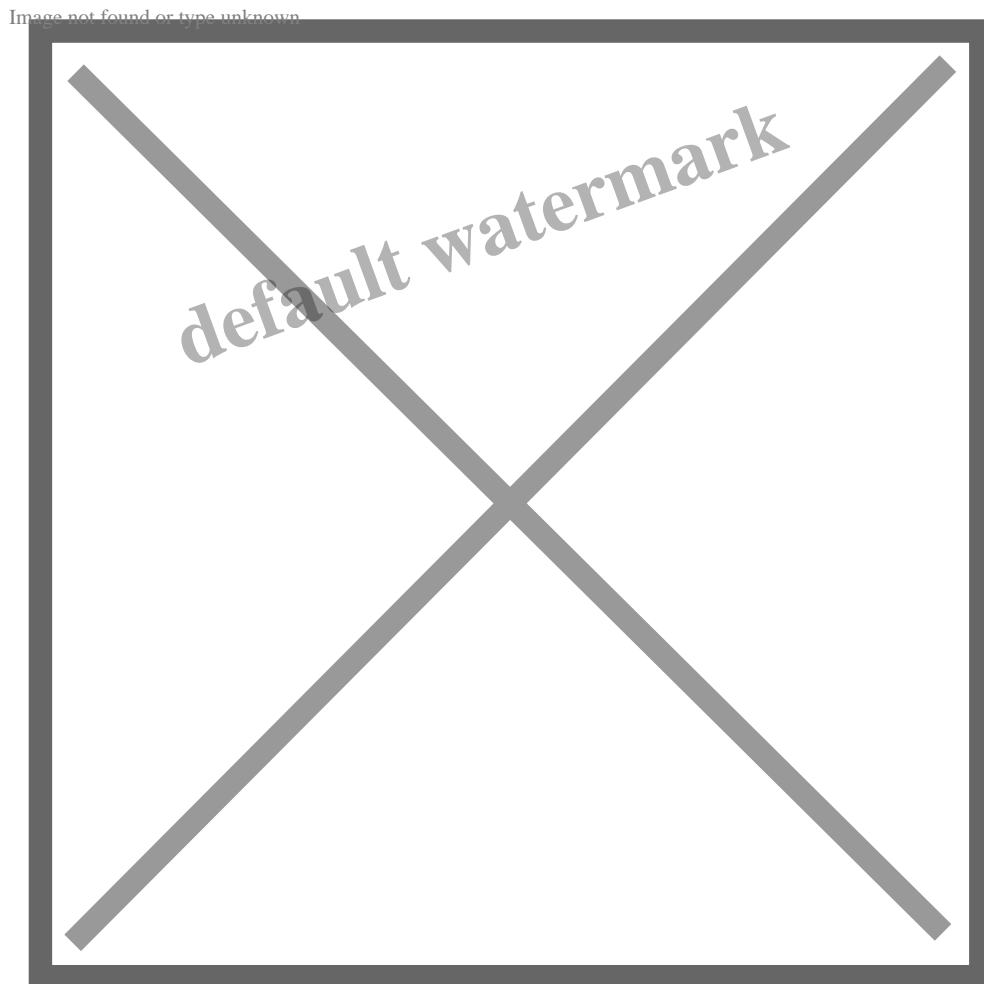

Key Benefits

- **Effective Insect Deterrent:** Utilizes innovative refracted light technology that scares away flying insects, ensuring they stay away from your food without the use of harmful chemicals.
- **Safety First:** Features blades that automatically stop when obstructed, then resume once clear, making it safe around children and during meals.
- **Dual Power Options:** Operates efficiently either via USB or with batteries, offering versatility and convenience for all outdoor situations.

- **Portable Design:** Lightweight and compact, easy to carry and set up, perfect for picnics, camping, or any outdoor family gatherings.
- **Quiet Operation:** Works silently to keep pests away, allowing you to enjoy peaceful meals without noisy distractions.
- **Environmentally Friendly:** A green solution to pest control, avoiding the environmental and health impacts of insecticides.
- **Universal Usability:** Simple to operate, requiring no special setup or tools, making it accessible for everyone at any event.

Where and When to Use This Fly Repellent Fan

This fly repellent fan is perfect for any outdoor setting where food is served. Use it at picnics, during outdoor parties, at food stalls, or while camping. Its portable design and dual power options make it easy to use anywhere, providing peace of mind that your dining experience will be fly-free.

What Makes Our Fly Repellent Fan Special?

What sets our fan apart is its innovative use of refracted light technology, which is not commonly found in other fly repellents. This unique feature makes it exceptionally effective at keeping flying insects

away without the use of chemicals, making it safe for use around food, children, and pets. Its user-friendly design ensures anyone can operate it easily, and its safety features make it ideal for crowded gatherings where children are present.

Get Ready for Uninterrupted Dining Pleasure

Don't let flies and other pests spoil your outdoor fun. Grab our Portable Fly Repellent Fan today and enjoy the freedom of dining outdoors without the annoyance of insects. **Order now** and take the first step towards a more enjoyable outdoor eating experience!
