

Smart Electric Neck and Shoulder Massager

Description

Experience Deep Relief for Neck and Shoulder Tension

Say goodbye to neck pain and muscle tension with the Smart Electric Neck and Shoulder Massager. This powerful, portable massager combines advanced TENS (Transcutaneous Electrical Nerve Stimulation) and EMS (Electrical Muscle Stimulation) technology to target deep muscles and provide soothing relief. Perfect for anyone dealing with stiff necks, cervical strain, or sore shoulders, this neck massager delivers a spa-like experience right at home. It's equipped with an optional hot compress feature to ease tension and promote blood circulation, making it a must-have for daily relaxation and recovery.

Key Features for Effective Relief

- **Advanced TENS+EMS Therapy:** Effectively relieves muscle pain and stimulates deep tissue recovery.
- **Hot Compress Function:** Constant temperature heat therapy relaxes neck muscles and improves blood flow.
- **Four Massage Modes:** Choose between comprehensive, tapping, kneading, or pressing to suit your needs.
- **Adjustable Intensity:** Nine gear force levels, from light care to intense relief for stiff neck injuries.
- **Ergonomic Design:** 270-degree curved electrode pads fit comfortably around the neck and shoulders for maximum contact.
- **Portable and Rechargeable:** Compact design and rechargeable battery ensure you can take it anywhere for relief on the go.
