

Touchless Automatic Foam Soap Dispenser with Type-C Charging

Description

Effortless Hygiene with Touchless Convenience

Upgrade your handwashing experience with the Touchless Automatic Foam Soap Dispenser. Designed to enhance hygiene and convenience, this smart liquid soap dispenser eliminates the need for manual pressing, ensuring a germ-free experience every time. Featuring near-field infrared induction, it generates bubbles in just 0.25 seconds, making it perfect for busy households and public spaces.

Advanced Features for Modern Living

Our automatic soap dispenser is equipped with intelligent Type-C charging, allowing for a hassle-free and eco-friendly recharging process. The 2000mAh large capacity lithium battery provides long-lasting power, with a single charge offering up to 10,800 uses or a standby time of 3-6 months. The durable ABS construction ensures reliability and longevity, making it an excellent choice for any environment.

Product Benefits

- Touchless operation for enhanced hygiene
- Fast bubble generation in just 0.25 seconds
- Rechargeable and economical with Type-C charging
- Long battery life with up to 10,800 uses per charge
- Durable ABS material for lasting performance

Perfect for Every Setting

The Touchless Automatic Foam Soap Dispenser is ideal for use in homes, offices, schools, and public restrooms. Its sleek design and efficient functionality make it a versatile addition to any space, ensuring

that everyone enjoys a clean and convenient handwashing experience. Whether you're looking to upgrade your bathroom or provide a more hygienic option for guests, this dispenser is the perfect solution.

Why Choose This Dispenser?

What sets this soap dispenser apart is its combination of advanced technology and user-friendly features. The near-field infrared induction ensures quick and efficient bubble generation, while the Type-C charging capability offers convenience and sustainability. With a large capacity battery, you can enjoy long-term use without frequent recharges. Its automatic operation helps prevent the spread of germs, making it a smarter and safer choice for everyone.

Experience the Future of Hand Hygiene

Don't settle for outdated soap dispensers. Embrace the future of hand hygiene with the Touchless Automatic Foam Soap Dispenser. Enjoy the benefits of touchless technology, long-lasting power, and sleek design. Order now and transform your daily routine with this smart, efficient, and hygienic solution.

- Touchless operation for ultimate cleanliness
- Fast and efficient bubble generation
