

Ultimate 800ml Ultrasonic Cleaner: Portable Washing Machine

Description

Unleash the Power of Ultrasonic Cleaning at Home!

Introducing our Ultimate 800ml Ultrasonic Cleaner – the perfect solution for a professional cleaning experience in the comfort of your home. This portable washing machine, equipped with a 35W industrial-level transducer, emits powerful 40,000KHz ultrasonic waves to create millions of microscopic cleansing bubbles. Watch as it effortlessly removes dirt, grime, and oil from the surface of your valuables, leaving them brand new and sparkling.

Key Features That Shine Bright:

- **Deep and Gentle Clean:** 35W industrial-level transducer, emitting 40,000KHz ultrasonic waves for a thorough clean without the need for chemicals or scrubbing.
- **Adjustable Time:** Microcomputer with timer, supporting 0-15 minutes working time. Easily customizable with buttons on the front panel and a LED display for convenience.
- **Premium Quality:** Upgraded 304 stainless steel tank for better corrosion and heat resistance, ensuring a longer service life. Integral construction guarantees no water leakage.
- **Complete Accessories:** Includes a washing basket to reduce friction and protect small items during washing. Ideal for jewelry, sunglasses, dentures, tattoo guns, and more.
- **Humanized Design:** Compact size with an 800ml tank, equipped with a lid to prevent water splash, leakage-proof jack, and efficient heat dissipation. Perfect for multiple scenes, including jewelry, lab, circuit boards, dental devices, dishware, and industrial applications.

Efficiency Meets Versatility:

With a 0.8L tank capacity and a low noise level, this ultrasonic cleaner is suitable for a variety of settings – whether at home, in a commercial space, or a lab. Save time and effort with its user-friendly design and witness your items looking new and shiny after each wash.
