- **Advanced Keystone Correction:** Horizontal and vertical 6D digital keystone correction for easy setup.
- **Rich Interface Options:** Includes HDMI, USB, and headphone outputs for versatile connectivity.
- **Long-lasting Performance:** 50,000-hour light lifespan ensures years of use.

Why Choose the Ultra HD 4K Beam Projector?

This projector stands out with its blend of advanced technology and user-friendly features. The 1450 ANSI lumens brightness ensures clear viewing even in daylight, making it ideal for any time of day. The projector's 1080p native resolution and support for 4K content deliver a superior viewing experience, whether you're watching movies, playing games, or giving presentations. The built-in WiFi 6 technology

provides fast and stable internet connectivity, perfect for streaming and online gaming. With the Android 9.0 TV Box, you have easy access to a wide range of apps and streaming services. The large projection size, up to 300 inches, transforms any room into a home theater, offering an immersive viewing experience far beyond a traditional TV. Additionally, the HIFI 10W speakers with Dolby Audio support create a rich, powerful sound environment, enhancing the overall experience. The advanced keystone correction makes it easy to set up the projector at any angle, ensuring a perfect picture every time. The projector's rich interface options, including HDMI and USB, allow for easy connection to various devices, enhancing its versatility.
