

Wearable Electric Breast Pump

Description

Hands-Free, Convenient Breastfeeding with the Wearable Electric Breast Pump

Experience a new level of convenience and comfort with our Wearable Electric Breast Pump. Designed for the modern mom on the go, this hands-free breast pump allows you to collect milk effortlessly while keeping your hands free to tend to other tasks. Whether you're at home, work, or traveling, this compact, rechargeable pump offers exceptional performance and convenience. With 4 unique modes and 36 adjustable suction levels, it mimics a baby's natural nursing rhythm to stimulate milk flow efficiently and comfortably. Plus, it's ultra-quiet, ensuring discretion wherever you are.

The pump comes equipped with two flange sizes—19mm and 24mm—ensuring a perfect fit for moms of different breast sizes. Crafted from BPA-free, eco-friendly materials, it's safe for both mom and baby. The soft silicone suction cups ensure maximum comfort, while the anti-backflow system prevents milk contamination by keeping milk isolated from the air. Lightweight and portable, it's an essential tool for breastfeeding moms who need both convenience and reliability.

Product Features

- 4 pumping modes to suit your comfort and needs
- 36 adjustable suction levels for customized milk flow
- Includes 19mm and 24mm flange sizes for a personalized fit
- Hands-free, wearable design for on-the-go convenience
- Ultra-quiet operation for discreet pumping
- Rechargeable battery with USB charging cable for portability
- BPA-free, eco-friendly materials for safety and durability
- Anti-backflow design to prevent milk contamination

Why Moms Love This Wearable Breast Pump

- **Hands-free freedom:** Pump discreetly and effortlessly while keeping your hands free for other tasks, perfect for multitasking moms.
- **Customizable comfort:** With 36 suction levels and 4 pumping modes, you can find the perfect combination for your body's needs.
- **Quiet and discreet:** Enjoy ultra-quiet operation, whether you're pumping at work or in public spaces.
- **Perfect fit:** The pump includes two flange sizes (19mm and 24mm) to accommodate different breast sizes and provide a comfortable, secure fit.
- **Portable and rechargeable:** The rechargeable design means you can take this pump anywhere, with no need for bulky cords or outlets.
- **Safe and hygienic:** BPA-free and with an anti-backflow system, this pump ensures your milk is collected safely and without contamination.

Take Control of Your Breastfeeding Journey Today
