

Wireless CarPlay Adapter

Description

Effortlessly Upgrade to Wireless CarPlay

Experience the freedom of a wireless connection with this easy-to-use Wireless CarPlay Adapter. Designed to convert your car's wired CarPlay system into a seamless wireless experience, this dongle allows you to enjoy all the features of CarPlay without the hassle of plugging in your phone. With full support for navigation, music, Siri assistant, and hands-free phone calls, this device ensures you stay connected and in control while driving.

Universal Compatibility & Easy Setup

Compatible with over 800 car models, this adapter is the perfect solution for drivers with an iPhone 6 or later. It's important to note that this device is only for vehicles equipped with wired Apple CarPlay systems. Installation couldn't be simpler—just plug it in, and it's ready to go. No additional apps, drives, or updates are needed. Once you complete the first setup, the adapter automatically connects wirelessly every time you start your vehicle, giving you a hassle-free experience from the get-go.

Why Go Wireless? Convenience & Protection

Say goodbye to the inconvenience of plugging and unplugging your phone every time you get in or out of your car. With this Wireless CarPlay Adapter, you can keep your phone in your pocket, bag, or glove compartment, reducing the risk of wear and tear on your charging cables. This not only saves time but also protects your phone from the constant plugging and unplugging process, preserving its port's integrity for longer use.

Compact and Stylish Design

Despite its powerful functionality, this Wireless CarPlay Adapter is designed to be compact and discreet. Its sleek design fits easily into your car's interior without taking up valuable space. You can even hide it out of sight, thanks to its small size. The adapter comes with a USB to USB-C converter, ensuring compatibility with both types of car ports. Whether you're on a daily commute or a road trip, this adapter is your perfect car companion.

Product Benefits

- Effortlessly convert wired CarPlay to wireless for a seamless driving experience.
- Plug and play design makes installation simple and easy for all drivers.
- Compatible with over 800 car models and iPhone 6 or later.
- Protects your phone from constant plugging and unplugging damage.
