

Wireless Intercom Doorbell

Description

Enhance Your Home Security

Experience top-notch security with the Wireless Intercom Doorbell featuring a 4.3" HD IPS screen and night vision capabilities. Whether it's day or night, this smart video doorbell ensures you see who's at your door clearly and communicate with ease using the two-way audio intercom system. Designed for durability, the waterproof construction means it can handle various weather conditions, making it perfect for home, office, or apartment use. With a video resolution of 800W and a wide 170° viewing angle, you can monitor your entryway with confidence and peace of mind.

The Wireless Intercom Doorbell operates without the need for WiFi or smartphone connectivity, making it a straightforward, hassle-free security solution. With a built-in rechargeable lithium battery and a standby time of up to 4 months, this doorbell system is low-maintenance and practical. Its easy-to-install design ensures that you can have it set up in no time, providing instant security enhancements for your property. Whether you're looking to upgrade your home's security or add an extra layer of protection to your office, this video doorbell is the perfect choice.

Product Features
